

Course progression map for 2018 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

B2000 Bachelor of Business

The placement of units may be rearranged to provide flexibility in choice of elective units or sequencing. For example, it may be necessary to move some Level 1 units into second year to allow proper sequencing of your major studies in Business or to enable you to take Level 1 units from another major or minor. Students should seek advice from Student Services if they are in any doubt.

Students who wish to take a second major, especially one from another faculty, may need to complete more than the usual eight first year units and study one or more Level 1 units in year two. You should note that no more than ten Level 1 units may be completed in a single degree course.
