

Course progression map for 2019 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the Handbook.

B2001 Bachelor of Commerce

The placement of units may be rearranged to provide flexibility in choice of elective units or sequencing. For example, it may be necessary to move some Level 1 units into second year to allow proper sequencing of major studies. Students should seek advice from Student Services if they are in any doubt.

Students who wish to take a second major, especially one from another faculty, may need to complete more than the usual eight units at Level 1 and study one or more Level 1 units in year two. You should note that no more than ten Level 1 units (60 points) may be completed in a single degree course.
